

# knitty 2024 rate card

patterns for the people since 2002

Divergenerate by Amy Gunderson from our First Fall '23 issue

Knitty is the longest-running free knitting magazine on the internet, and our readers love us. In fact, over the last year, more than **1.9 million** knitters visited our pages. That's a whole lot of exposure for your product or service.

And with **rates starting at only \$10** per issue, we think we're the best deal on the web.

### Some more numbers to peruse:

- Though our readership continues to grow, we **have not raised our ad rates in years**, and we don't plan to. Our advertisers are mostly small businesses like us; we all need a break!
- 49% of our readers are from the US, 12% from Canada, 10% from the UK and the rest are from all over the world
- There are thousands of patterns in our 21 years' of back issues, easily searchable in our Library. Readers can search by gauge, project type, concentration level, or any combination of the three! And all ads booked in previous issues continue to work for the advertiser forever!
- Over the last year, 144k active users visited the site on a regular basis.

Select the ad category/ies you wish to book, complete and submit the form. Amy will contact you to complete your order and bill you. Our preferred method of payment is Paypal. Ad fees are non-refundable. Ads booked by Canadian companies or individuals are subject to HST. All prices in US dollars.

**Artwork format** Ads must be submitted in the size specified on pages 3-4 of this Rate Card, either as a static JPG or GIF, with a resolution of 180dpi. No pop-ups.

**Issue Sponsorship: our most visible ad space**  
rotating • feature up to 5 images • 6 spots available

Make your mark on the whole issue by booking the Issue Sponsorship! Your banner ad appears along the right side on **every single page in the issue**. You can't get better exposure than this...your message will be everywhere as readers read the issue and browse the patterns.

Your ad will continue to work for you, even when your issue is in the Library (see Archived Issues on page 2). You can provide up to 5 unique ad images to share your ad space - each with their own URL - and feature a variety of products! Ads booked in this space load randomly and all ads receive equal exposure over time.

**\$1000** **200px wide x 550px high**

**Front/Index page (aka Table of Contents)**  
rotating • 10 spots available

Our URL (knitty.com) goes directly to this page, so readers have instant access to the entire contents of the issue on the first click. That means this category is more visible than ever, but we've held the price steady. Every pattern and article featured in the issue is accessible from our clean, engaging Index page that's optimized for mobile devices and tablets.

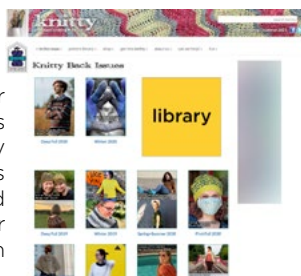

There are two locations for Index ads: to the right of the Patterns and then several screens further down, beside the Features. So no matter what they're interested in, readers will be exposed to an Index ad every time they visit this page. This gives you **remarkable exposure on our highest-profile page**. Your ad will continue to work for you, even when your issue is archived in the Library (see Archived Issues on page 2). Ads load randomly and all ads receive equal exposure over time.

**\$500** **300px wide x 300px high**

**Library (Back Issues, Index of Patterns by Category)**  
rotating • 6 spots available

The Library is the **most-visited section** in Knitty, after our Index page. On these mobile-device-friendly pages, readers browse for their next project. Your ad will be prominently displayed at the top right of more than 30 pages of patterns and features from 20 years of previous issues. Ads load randomly and all ads receive equal exposure over time. Your Library ad will be live on the site during the 3-month run of the issue you choose.

**\$300** **300px wide x 300px high**

No price increase once again this year!

**Pattern page**  
only 1 ad per page

This exclusive space gives you **permanent prime visibility** atop a pattern or feature article that's optimized for all mobile devices. Your ad will be the only one in that location. Advertisers may select from available pattern/feature pages to match their ad message to our readers' interest *when possible*. First come, first served. Your ad continues to work for you, even when your issue is archived in the Library (see Archived Issues on page 2).

**Extra content:** 2 or more Surprise patterns go live the month after an issue launches. They stand out a little more than a pattern might when released with 10+ others in a new issue. Your ad will continue to work for you, even when your issue is archived in the Library (see Archived Issues on pg 2).

**\$200** **600px wide x 150px high**

**Bizcard**  
unlimited spots available • rotating placement

Covet Central is Knitty's 24-hour shopping mall, optimized for mobile devices. Our readers visit this page specifically to shop and to see what's new. We slashed the price on this space to make advertising affordable for small businesses, as a response to the fiscal challenges of the pandemic.

A Knitty Bizcard is the most affordable way to be seen by our readers at exactly the moment **they're interested and ready to buy!** Every time the page loads, the ads appear in a new random order, giving all advertisers equal exposure on all parts of the page over time. Your ad will continue to work for you, even when your issue is archived in the Library (see Archived Issues on page 2). For Bizcard ads, booking is self-serve only (it's easy!).
